

SECRETSoviet Gold Production and Reserves

1. The various estimates of Soviet gold production and reserves quoted by the Legislative Reference Service in their 21 November 1963 memorandum are an accurate reflection of estimates appearing in open source publications. As the memorandum correctly suggests, these estimates vary widely because of the nature of the source material used. 25X1

3. CIA estimates of Soviet production of gold for each year since 1955 and the level of reserves at the end of each year of this period are given below. Figures are in million of US dollars at 35 dollars per troy ounce.
